

# WorkFlow Global HRMS - Recruitment Management Module

Generated: 2026-06-23 15:33:07

## 1. Recruitment Module Overview

The Recruitment Management module streamlines the hiring process from job posting to candidate selection. It provides tools for managing job openings, tracking applicants through the hiring pipeline, and scheduling interviews.

### Key Features:

- Job posting management with detailed requirements
- Candidate pipeline tracking with status progression
- Interview scheduling with interviewer assignment
- Candidate rating and evaluation system
- Skills and experience tracking
- Notice period and availability management

## 2. Domain Entities

JobPosting Entity:

```
public class JobPosting : BaseEntity
{
    public string Title { get; set; }
    public string? Department { get; set; }
    public string? Location { get; set; }
    public string? ExperienceRequired { get; set; }
    public string? SalaryRange { get; set; }
    public JobStatus Status { get; set; }
}
```

Candidate Entity:

```
public class Candidate : BaseEntity
{
    public string Name { get; set; }
    public string? RoleApplied { get; set; }
    public CandidateStatus Status { get; set; }
    public decimal Rating { get; set; }
    public string? Experience { get; set; }
    public string? NoticePeriod { get; set; }
    public string? Skills { get; set; }
    public string? JobPostingId { get; set; }
}
```

## 3. Candidate Status Flow

Candidate progression through hiring stages:

- Applied - Initial application received
- Shortlisted - Passed initial screening
- Interviewing - In interview process
- Offered - Job offer extended
- Rejected - Not selected

## 4. GraphQL API

### Queries:

- getJobPostings - List active job openings
- getCandidates - View applicants for a specific job

### Mutations:

- updateCandidateStatus - Progress candidates through pipeline
- scheduleInterview - Book interview slots

## 5. Frontend Features

- Job posting cards with candidate counts
- Candidate pipeline board with status indicators
- Interview scheduling modal
- Status dropdown for quick updates
- Candidate profile view with skills and experience
- Rating system for candidate evaluation
